
Song Requests

Hey folks,

Time to have your say! Have any ideas for songs you think we should play at upcoming shows? Suggest them here, and if we like it we will learn it for ya!

All we ask is PLEASE NO Sweet Home Alabama, New Orleans is Stinking, Brown Eyed Girl, Rockin in the Free World, or any other songs that are done to death by all the other bands in Ottawa.

I also would rather shave my balls with a rusty spoon than play any U2, just in case you were wondering :)

I really think you guys would find your niche if you played a couple of tunes like "Safety Dance" by Men Without Hats. Or "Party all the Time" by Eddie Murphy. Think about it.

I think this post is almost worthy of a bad karma!

Jokes aside, i've mentioned this to Brian at work, but i will say it again, i can really see you guys doing "Nothing Special" by a relatively new band called Ill Scarlet. Listen to this song 4 or 5 times before you make a decision. Its pretty tight.
